

**Environmental Technician
Water & Waste Water Systems Operations Program
2019-20 Academic Year
Fall 2019 Intake –Option:**

Compressed 3 Academic Semesters & 3 Co-Op Placements Delivery Model

Fall intake provides 2 academic semesters before 1st co-op placement.

Students Follow Academic Achievement Levels AALS 1 - 6

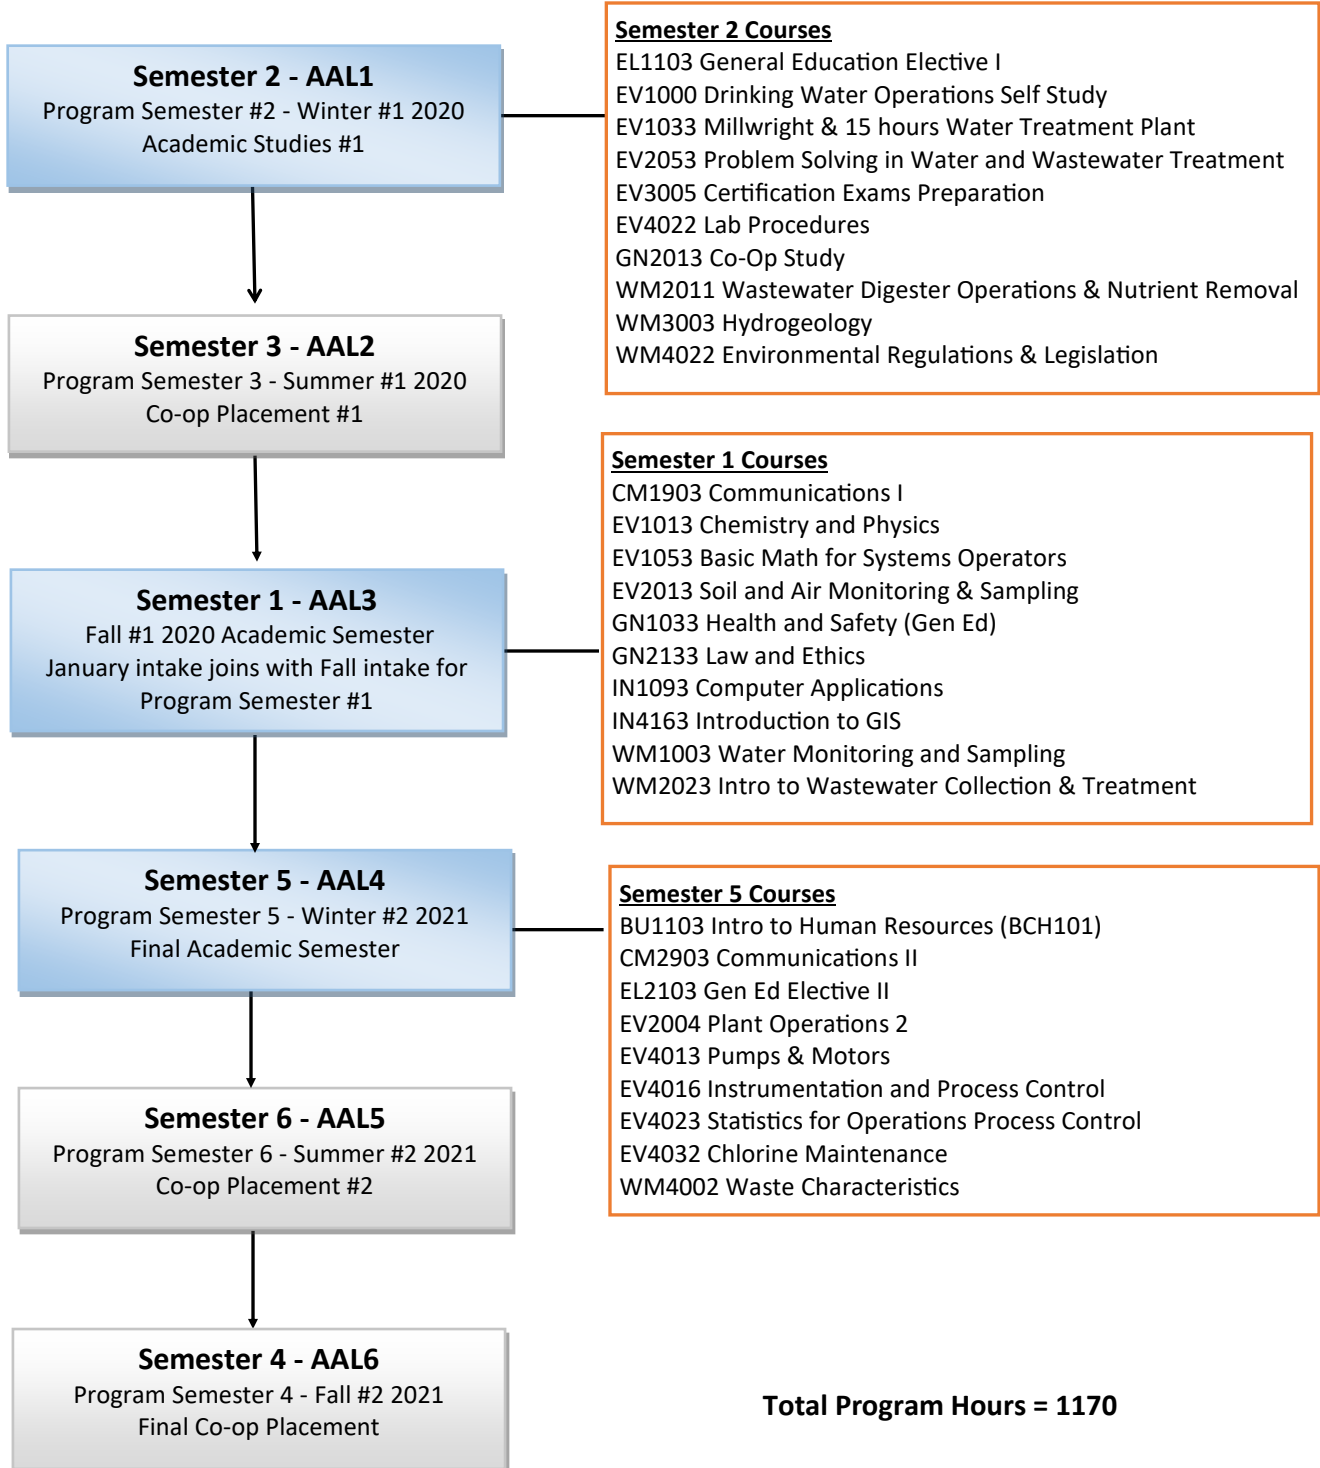

This delivery compresses a 2-year 4-semester diploma into 3 Academic semesters. It offers potential of 3 Co-Op Placements which, if secured, could provide sufficient workplace experience hours to write Ministry Class I exam 2 years following starting the program. International students: we recommend you consider the 4-semester, non-co-op program for greater certainty with post-graduate work permits.

January 2020 Intake — Option:

Compressed 3 Academic Semesters & 3 Co-Op Placements Delivery Model

Winter intake provides 1 academic semester before 1st co-op placement opportunity.

Students Follow Academic Achievement Levels AALS 1 - 6

International students: we recommend you consider the 4-semester, non-co-op program for greater certainty with post-graduate work permits.
