

D – Executive Limitations

Naming of Facilities

Background

Northern College views private and corporate support of the institution invaluable in fulfilling its Vision and Mission and from time to time, naming of facilities to recognize outstanding contributions to the College is an appropriate reflection of this value.

Policy

The President shall not permit the naming of a College building (or part thereof) unless it is in recognition of individuals, corporations or organizations that demonstrate high ethical standards and have made extraordinary contributions to the Vision and Mission of Northern College.

Excluded from this policy is naming for purposes of communicating the function, location or activity undertaken in the building (or part thereof).
